Summary

Software developer with hands-on experience from Code the Dream and SAS training programs. Currently contributing to SAS's Risk Engine rewrite initiative, rebuilding and modernizing core components that support financial modeling and automation. Skilled in React, Next.js, and Node.js, with additional experience in Python for automation and testing. Passionate about creating smooth, reliable, and user-friendly applications through teamwork and agile development.

Skills

Technical Skills: : JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, Python, PyQt6, MongoDB, Firebase, Airtable, REST APIs, Jest, Playwright, Pytest, Tailwind CSS, HTML/CSS

Areas of Knowledge: Full Stack Development, Test Automation, API Integration, Authentication, Database Design, Responsive UI/UX.

Key Professional Skills: Agile & Scrum Methodologies, Collaboration, Technical Documentation, Problem-Solving, Continuous Learning.

Work Experience

Software Developer Apprentice | SAS Institute

Jan 2025 – Present • Work Experience Trainee

- Resolve Nova Commons bug tickets and improve UI accessibility by collaborating closely with engineers and UX professionals, writing unit tests for all bug fixes.
- Achieved 80 % unit tests and end-to-end test coverage per component using Jest and Playwright, significantly improving application reliability.
- Develop automated UI test frameworks with Pytest and Python for Risk Cirrus to catch critical bugs before production.
- Build feature pages for the Risk Engine using the Risk Cirrus Builder, integrating APIs and interactive UI components.

Software Developer CTD Labs | Code the Dream

Dec 2024 – Present • Apprenticeship

- Contribute to projects that simplify access to public benefits using Next.js, TypeScript, React, LangChain and OpenAI.
- Build user-facing components and AI-driven features to enhance user engagement and accessibility.

- Add multilingual support and progressive web app (PWA) capabilities using Tailwind CSS, next-intl, Airtable and next-pwa.
- Collaborate with cross-functional teams using GitHub and agile/scrum methodologies, participating in daily stand-ups, sprint planning and code reviews.

Social Media Evaluator/Data AI Annotation | Appen

Sep 2018 – Dec 2023 • Independent Contractor

- Evaluated social media content to ensure compliance with platform guidelines, protecting users from misleading information.
- Curated and annotated datasets to improve AI model performance and training accuracy.
- Analyzed website articles and advertisements for quality and relevance using data-driven processes.
- Provided feedback that informed product releases and increased user engagement.

Media Specialist | Reynolds Community College

Dec 2017 – Jul 2018 • Part Time

- Provided technical support for special events, ensuring successful multimedia presentations and video conferencing free from technical issues.
- Troubleshoot, maintained and managed inventory of technology equipment to keep the system operational and ready for use.
- Responded to technical requests via the ticketing system, resolving pending issues and maintaining high service quality.
